

Oppo Supports are made of 4-way stretch spandex with 100% cotton lining. This helps keep your skin dry and comfortable. A super absorbent lining that provides both comfort and durability.

SACRO LUMBAR SUPPORT (2065)

- Designed with straps crossing the back and fastened in front
- Four pliable support splints at the back for extra stability
- Comfortable to wear and provides excellent support
- Waist measurement required to determine size

ABDOMINAL BINDER (2160)

- Indicated for post operative and post childbirth abdominal constraint
- Made of light, breathable elastic multiband material
- Provides contour adjustability between waist and hips
- Helps to relieve back pain
- Waist measurement required to determine size

SACRAL CINCH BELT (2061)

- Provides support and variable compression to the sacrum and sacroiliac region of the spine
- Used for therapeutic or prophylactic support
- Ideal for sports medicine
- One size fits all

POSTURE AID / CLAVICLE BRACE (2075)

- Excellent aid in correcting poor posture and shoulder slump
- Adjustable hook and loop closure facilitates proper fit
- Suitable for adults and children
- Measure around chest to determine size

ADJUSTABLE KNEE STABILIZER (1230)

- Two medial and lateral spiral stays provide additional support and stability for the knee
- Open patella designed to relieve pressure
- Heat retention and compression reduces potential for strain or injury
- One size fits all

NEOPRENE KNEE STABILIZER (1030)

- Provides additional support and stability for the knee
- Neoprene circle pad around the patella provides padded protection and stabilization to prevent displacement
- Mid-section of knee circumference required to determine size

SPIRAL KNEE SUPPORT (2030)

- Four medial and lateral metal stays provide additional support and stability for the knee
- For arthritic knee conditions, minor sprains and strains
- Improves healing and keeps joints and muscles flexible
- Knee circumference required to determine size

NEOPRENE ANKLE SUPPORT (1201)

- Provides effective support for sprains and strains, damaged ligaments and muscles, and weak or unstable ankle conditions
- Fully adjustable hook and loop fasteners ensure optimum fit
- Measure around ankle joint to determine size

ELASTIC ANKLE SUPPORT (2103)

- Adjustable strap maintains desired compression
- Figure-eight construction for compression and pain relief
- Excellent support for weak, injured ankles or arches
- Measure around ankle joint to determine size

NEOPRENE ANKLE SUPPORT (1003)

- Open toe and heel design allows full range of movement
- Relieves pain due to strain or stiffness
- Provides compression for weak or over-stressed ankles
- Measure around ankle joint to determine size

THIGH SUPPORT (2040)

- Helps relieve pain from an injured or weak thigh
- Provides heat retention
- Effective support for strained groin muscle and torn hamstrings
- Measure around the thigh to determine size

NEOPRENE WRIST WRAP (1081)

- Helps relieve pain through pressure on injured wrists
- Provides firm support around weak or strained area
- Adjustable hook and loop strap insures comfortable fit and stabilization during activities
- One size fits all
